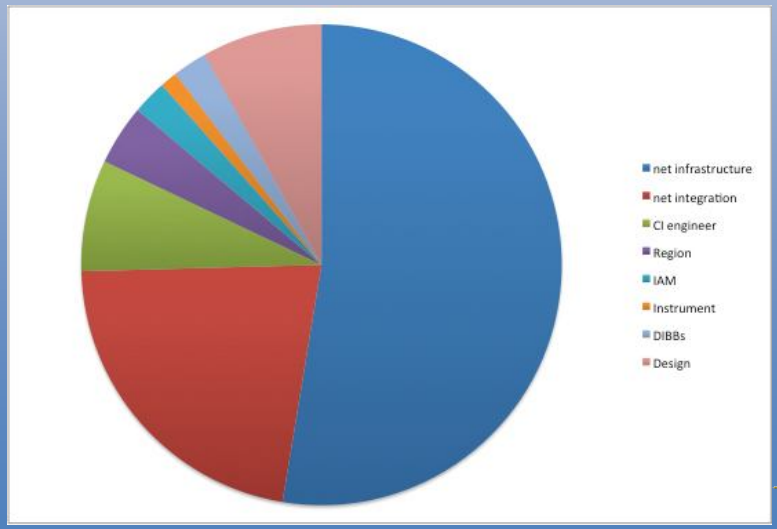
  - Regional Coordination: 7
  - DIBBs: 4
  - IAM: 4
  - Instrument: 2



A few thoughts

- On behalf of NSF, thank you for serving on review panels!
- CC*DNI is expected to continue
  - It changes year over year
  - Broadening participation, under-resourced institutions
  - Multi-campus and regional thematic
  - Campus networking ----> campus CI
- Thanks for sharing your experiences and knowledge this week
- this week is also about “co-mingling”. Surya on ESCC yesterday: “All I would ask is for you to urge the attendees to take advantage of this rare opportunity to build contacts in the R&E community and participate actively where possible.”

Thanks!
