

SECOND AMENDMENT TO MASTER SERVICE AGREEMENT

This **SECOND Amendment to the Master Service Agreement** ("Amendment") is entered into as of May 2, 2019, and hereby amends that certain Master Service Agreement by and between The Quilt, Inc. (hereinafter "The Quilt") and GTT Americas, LLC, dated May 17, 2018 ("Agreement").

WHEREAS, Quilt and GTT Americas, LLC are parties to the Quilt Vendor CIS Master Service Agreement, dated May 17, 2018 (the "Agreement"), pursuant to which GTT provides commodity Internet services to certain specified authorized buyers; and

WHEREAS, Quilt and GTT Americas, LLC amended the Agreement by that certain First Amendment, dated June 20, 2018 ("First Amendment"); and

WHEREAS, for the promises contained herein and for other valuable consideration, Quilt and GTT Americas, LLC now wish to further amend the Agreement as follows.

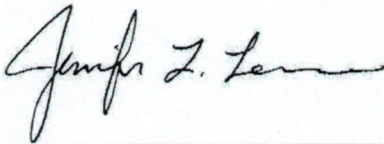

1. Exhibit B (Pricing Terms) in the Agreement is deleted and replaced with new Exhibit B (Pricing Terms), attached hereto.
2. Except as modified by this Amendment, all terms, provisions and conditions of the Agreement shall remain in full force and effect.

IN WITNESS WHEREOF, the undersigned have executed this Agreement as of the date first above written.

The Quilt, Inc., on behalf the Authorized
Buyers

EXHIBIT B

PRICING TERMS

IP Transit Requirements:

Client has own ASN and IP Space

Client runs BGP

On-Net Data Center Pricing

Port Type	Contract Term months	Non-Recurring fees and charges (describe)	Comments
1 Gig	12	\$200 Install	
10 Gig	12	\$500 Install	Minimum 10% Bandwidth Commit on 10 Gig Port
100 Gig	12	\$10,000 Install	Minimum 20% Bandwidth Commit on 100 Gig Port

Port Type	Contract Term months	Non-Recurring fees and charges (describe)	Comments
1 Gig	24	Waived	
10 Gig	24	Waived	Minimum 10% Bandwidth Commit on 10 Gig Port
100 Gig	24	\$5,000 Install	Minimum 20% Bandwidth Commit on 100 Gig Port

GTT does not charge a monthly cost for ports. However, there is a one-time cost to cover installation costs on a one-year term. GTT has waived port costs on a 2-year term for 1 gig and 10 gig ports; but is unable to waive port costs for 100 Gig ports, due to the significant costs incurred to support 100 Gig ports.

*On-demand mitigation performed upon client confirmation and re-routed using BGP. Client has control to re-route immediately.

Standard Term Discounts		
Term	NRR	MRR
2yr	25%	5%
3yr	50%	10%

1. For always-on, client traffic continuously flows through GTT mitigation platform.
2. Each protected prefix supports up to /24 for IPv4 and /48 for IPv6. Additional install fees apply for additional prefixes added beyond initial prefix allocation.

Service Features and Benefits

Flexible service that includes **always-on** and **on-demand** service options

Leverages **scalability** of GTT's leading **Tier 1 IP network** to **mitigate attacks**

Utilizes Corero's state of the art platform technology, including deep packet inspection, volumetric attack, state exhaustion attack, application attack filtering and dynamic customer traffic profiling

Pricing options based on **aggregate traffic volume**

SLA availability guarantees, and assurance that **clean traffic will not be impacted** by DDoS attack traffic

Heuristics-based engine with behavioral analysis capability

Online portal, providing **comprehensive insight** into DDoS attacks

One of the industry's **lowest false positive attack rates**
