

# Cyberinfrastructure Training and Workforce Development Panel

October 4, 2017

Albuquerque, New Mexico

**ESnet**  
Site Coordinators Committee

Moderator: **Jim Bottum**, Clemson University / Internet2

Questions: 1

**Eli Dart**, Science Engagement Team, ESnet

Questions: 2, 4, 5

**Marla Meehl**, University Corporation for Atmospheric Research /  
Front Range GigaPoP / PI for WINS Award #1640987

Questions: 2, 4, 5

**Patrick Schmitz**, Associate Director of Research IT, University of  
California Berkeley

Questions: 1, 3, 4, 5

## Panel Discussion

1. Are your CI/research computing staff part of a clearly defined, comprehensive job family system (JFS) within your institution that recognizes the rare capabilities they bring to the research mission?
2. What professional development opportunities does your CI staff get exposed to?
3. How do you acknowledge/reward your CI staff for their contributions to advancements and achievements?
4. What's the cyberinfrastructure workforce pipeline look like for R&E and other hard to recruit areas?
5. How do you create a culture of advocacy and storytelling for the impact of these roles?
