NSF Campus Cyberinfrastructure PI and Cybersecurity Innovation for Cyberinfrastructure PI Workshop

October 3-4, 2017 | Albuquerque, NM

Quad Chart for: *TCU Cyberinfrastructure Initiative (TCU-CI²)*

Approach:

- Community-based participatory research (stakeholder engagement)
- Methodology includes: surveys, site visits, focus group meetings

Broader Impact:

Improve access to and participation in the national STEM research and education infrastructure by the nation's Tribal Colleges and Universities and tribal communities

Deliverables:

- Comprehensive campus CI report delivered to each participating TCU to support their CI strategic planning
- Overall CI status report to NSF
