

# Identifying and Supporting Science Drivers in the Campus Environment

---

**Malathi Veeraraghavan (MV)**

**Professor, Charles L. Brown Department of Electrical and Computer Engineering**

**University of Virginia (UVA)**

**[mvee@Virginia.edu](mailto:mvee@Virginia.edu)**

**Sept. 25, 2018**

**2018 NSF CC\* AND CICI PI WORKSHOP**

Thanks to NSF for grant 1659174

# Panelists

---

- Doug Jennewein, Director of Research Computing, University of South Dakota
- Juan Montes, CIO, American Museum of Natural History, NYC
- Channon Visscher, Associate Professor of Chemistry & Planetary Sciences, Dordt College, Iowa
- Leon Reznik, Professor of Computer Science and Computing Security, Rochester Institute of Technology, New York

# Goal of the panel

---

- Hear about panelists' projects
- Learn from panelists' experiences in identifying drivers and engaging with scientists who will benefit from the project
- Hear what challenges were faced in the project, and how these challenges were handled

# Panel structure

---

- Project introductions by panelists - 40 minutes
- Panel Questions – 7 minutes
- Audience Q&A – 11 minutes

# Panelists' Talks

---

- Doug Jennewein: The Western South Dakota Research and Education Network
- Juan Montes: American Museum of Natural History CC\* Science Drivers and Process
- Channon Visscher: Rural Campus Connectivity for Research and Teaching on the Prairie
- Leon Reznik: Data quality and security evaluation framework for mobile platforms
